Resume

Arnold started his professional engineering career after joining the Building Management Authority (BMA) in 1982, where he worked until joining Wright Mackay & Associates in 1988.

With a change in company name in 2003 to WMA Consultants, Arnold remained as a key member of the organization progressing to Director in 2004.

During 2006 WMA Consultants amalgamated with BEST Consultants Pty Ltd. As a Director of WMA Consultants, Arnold continued as a Director of BEST, which reflects his level of experience and knowledge.

Arnold has over 25 years experience in electrical engineering with the last 15 years operating at a Senior Electrical Engineering and Management level.

With a career to date that spans over 25 years, Arnold has developed a broad range of knowledge, having completed projects including recreational, education, retail, health care, residential and commercial. His commitment to the profession has enabled him to specialize in providing the right engineering solutions to suit not only the client's expectation but also environmental considerations.
