#### **Resume**

Cameron has over 20 years experience in the Electrical Building Services.

He is one of the founding Directors of the BEST Consultants partnership, established in 2004, and has used his specialised expertise to raise the company's profile within the local market to one of the largest single discipline companies in Perth.

Cameron's engineering experience incorporates a wide range of Electrical Engineering developments, including major retail, educational, recreational, pharmaceutical, commercial office buildings and residential projects. He has also been commissioned by the communication provider WESTNET, providing engineering solutions for projects such as their new Data Communication Centre in Perth.

In recognition of his standing in the educational sector, Cameron was commissioned to rewrite the engineering design briefs on behalf of Educational Department WA for the areas of:

- High School Brief.
- Performing Arts High School Brief.
- Manual Arts High School Brief.

Cameron's commercial expertise, also lead to BEST Consultants undertaking the following significant developments.

- Mirrabooka Shopping Centre Development,
- Garden City Shopping Centre refurbishment,
- Coles Supermarket Refurbishments,
- Woolworths Supermarkets, Livingston, Gateways & Century City.
- Condor Towers,
- Elevation Apartments,
- Rise Apartments,
- Subiaco Oval Redevelopment,
- WACA Site Master planning

Cameron is also the current principal Engineer commissioned to rewrite the engineering design briefs on behalf of METCASH WA and Coles WA.

His expertise in this area has kept both companies moving forward with current technology trends.
