Resume

Kevin started his professional career in the late 1980's after successfully completing a Bachelor of Engineering degree from University of Western Australia. He joined CCD Australia in 1989 and progressed to Electrical Engineer before leaving to join Norman Disney & Young in 1993.

In 1996 Kevin's dedication to the industry was recognized when he became a Chartered Professional Engineer (CPEng NPR), as awarded by Engineers Australia.

Kevin remained with NDY until he established BEST Consultants Pty Ltd in 2002. He has over 20 years experience in Electrical Engineering with the last 10 years operating at Director level.

He has devoted the whole of his professional career to Electrical Engineering, which has seen him work for a limited number of Perth based Consultancies, specializing in Electrical Building Services.

As an industry qualified and recognized electrical engineer he has been involved in an extensive range of Electrical projects from health care and industrial projects, through to retail and specialist residential developments. Kevin's area of expertise also includes security and telecommunications.

Kevin's link to Western Australia extends beyond his professional career, with his understanding and appreciation of the quality of life offered by this amazing state. Kevin has always enjoyed the active outdoor lifestyle having completed numerous sporting events including over 12 Rottneest Swims, one of which he completed as a solo competitor.

This determination and commitment to succeed is reflected in the quality of work produced by Kevin and his team, who industry recognized, as indicated by the amount of loyal repeat clients.
