Construction: 2009 - 2010
Value: \$100 Million

THE RANGES, KARRATHA

The Ranges, Karratha is a high quality accommodation project located in Karratha, Western Australia.

Due to the resources boom accommodation in this area had become a much sought after commodity and the importance of having high quality housing was key to attracting employees to Karratha.

All major mining companies (ie, Woodside, Chevron and Rio Tinto to name a few) with major projects in and around Karratha have requirements for intermediate and long term quality accommodation.

The Ranges, Karratha consists of 148 fully furnished, air-conditioned, self-contained apartments in a resort style setting located close to the town centre.

The project is spread over 2.3 hectares and comes complete with a 25 metre swimming pool, gymnasium and covered carparking.

This project will be built to a high standard of finish and will offer the kind of accommodation not seen before in a mining town.

The Ranges, Karratha will be due for completion in 2010.
